20. Are we in favor of NYSPHSAA endorsing the following:

School safety and emergency management whereas, the NYSAAA as the professional organization representing athletic administrators, chooses to honor the memory of Chris Hixon, athletic director at Marjory Stoneman Douglas High School, whose life was senselessly cut short February 14, 2018. whereas, the NYSAAA in response to this event, including those recent tragedies involving school shootings, recognizes the extraordinary responsibility of athletic administrators to maintain and provide a safe environment during after school athletic events and practices. Therefore, be it resolved that the NYSAAA seeks to work collaboratively by offering access for all New York state athletic administrators to Ltc 631, athletic administration: emergency management of interscholastic athletic events. This course is a part of the nationally regarded professional development program created specifically for athletic administrators and offered by the national interscholastic athletic administrators association (NIAAA). be it further resolved that Ltc 631 athletic administration: emergency management of interscholastic athletic events will provide an overview of how to mitigate/prevent, prepare for and manage emergencies during interscholastic athletic events. The course will highlight venue and event safety, security and emergency management issues. The course will provide guidelines for creating an emergency team, assessing the venues for risks and needs, developing and implementing emergency management plans and debriefing after an incident. Be it further resolved that the NYSAAA stands united as the gatekeeper in their commitment to provide a safe, and healthy environment for their student-athletes. This task does not end on the playing field, but should be carried into the normal operation of a school. It is through these types of professional development experiences that an athletic administrator can make more of an impact the nysaaa has and will continue to be the organization that provides direction and guidance to administrators and student-athletes.

21. Safety Committee – Are we in favor of NYSPHSAA exploring EZ Scat Concussion Program - Concussion Management:

EasyScat provided a presentation on their mobile app for coaches and medical professionals regarding potential head injuries. EasyScat has met with a few Sections regarding their product. The purpose of this presentation was to provide the Safety Committee and the Sections to information regarding Easyscat. If there was interest from any of the Sections to move forward with East Scat NYSPHSAA would try and work with Easyscat to possibly establish a benefit for our member schools to use Easyscat. The Safety Committee will get feedback from their member schools.
