

### ***Executive Director Note***

As the Executive Director of Section XI-NYSPHSAA I would like to welcome you to our website.

Section XI is a not for profit organization established to administer and govern interscholastic athletics for the 80,000 + participating student-athletes of Suffolk County. We work with our 62 member school districts to promote and nurture positive athletic experiences for our players, coaches and fans. From our office in Smithtown we schedule all contests, assign all officials, administer the rules and regulations of New York and conduct championship events in 33 sports. All the while trying to provide fair and equitable competition for all students in grades 7-12.

I am very fortunate to have the opportunity to work with the best athletic administrators in New York State. Each of the Athletic Administrators in Section XI has devoted their professional careers to not only promoting the importance of athletic competition but making sure that the educational objectives of athletics continues to be the main focus. Their commitment and dedication is recognized and I salute their efforts.

Thank you for your interest and I hope you take every opportunity to get out and support all of our young men and women as they represent their schools and community.

*Tom Combs*
